## IMPORTANT NOTES

The Public Service Office (PSO) is the responsible Government agency for coordinating the formulation of the Government Establishment Register (ER) in accordance to the ER Framework as approved by Cabinet (*No. 39/19, 9<sup>th</sup> Aug, 2019*).

The guiding principles that underpin the ER Framework include:

- Rightsizing and rationalization of the ER based on government's national development goals, Motinnano and KV20;
- Linking Government's establishment (ER) with workforce development and service delivery, economic growth and national development;
- Analysis of cost implications against critical workforce demands, enhancing public service delivery and achievement of government's priorities
- Linking ER formulation with workforce demands, public service performance and efficiency and workforce capacity development.

As part of the ER Framework a criteria is also applied to making changes to the workforce establishment. The criteria range from establishing new positions, retitling of positions, and salary regarding/upgrading:

a. New positions:

- Associated with new developments/programs/functions (based on the KV20/government's strategic objectives) that the Ministry is implementing;
- Very critical & urgent for 2020 – i.e., if not supported, this will hinder overall operation and delivery of the Ministry's core services;
- Directly aligned with strengthening the 'CORE SERVICES' of the Ministry/Gov't agency;
- Cost neutral – cost implications need to be met by trading off existing vacancies. For those without vacancies, the following must have been examined:
  - The role of the new post cannot be assigned to existing positions;
  - If workload is the reason, there has to be proof that there has been expansion in the nature of work/responsibilities of the position (have to be related to the first three criteria). In addition, there has to be proof that attendance and performance of staff related to the position (Eg. in the unit/division) is very satisfactory.
  - There's no duplication of roles within and outside the Ministry, particularly with positions established on the outer islands. A whole of government approach should be applied when establishing positions that involved other Ministries.

b. Retitle of positions/divisions/units:

- Retitle made has to be reflective of the nature of the position;
- Have no cost or grading implications.

c. Salary regrading/upgrading:

- All proposals for salary upgrading will be dealt with separately and need to await implementation of the Job Evaluation (awaiting Cabinet's decision), hence salary upgrading will not form part of the ER process.
- Only on exceptional cases associated with correction of levels relative to existing structure will be assessed on a case-by-case basis.

In formulating the ER2022, the steps followed is outlined below:

- Step 1 -** Ministries draft and submit their ER2022 proposal using templates provided and submit to PSO for Assessment;
- Step 2 -** PSO assess submitted proposals and provides feedback and/or consults Ministries on the outcome
- Step 3 -** Ministries' proposals are finalized (based on the outcome of 2 above);
- Step 4 -** PSO compiles ER proposed changes for ER2022 for review and finalization by the Establishment Review Committee (ERC).
- Step 5 -** PSO, submits to Cabinet for approval changes to ER to be reflected in ER2022 based on the outcome of the ERC recommendations.
- Step 6 -** Based on Cabinet's approval, PSO incorporates changes to the ER (ER2022 is an outcome) and submits to MFED/NEPO for incorporation in the budget.

## Salary Scale wef 2018

Level	Gross		Level	Gross
L19-1	\$ 6,151.60		L8-1	\$ 15,750.80
