Academic Education Programs for Developing Countries Sponsored by Ministry of Commerce PRC

I. Program Description

i. Basic Information

1. Description

The Ministry of Commerce of the People's Republic of China's Project for Assisting Developing Countries in Degree Education was initiated in 2008 with funds from China's foreign aid. It is specifically designed to cultivate high-level, compound and applied talents in politics, economy and trade, diplomacy, agriculture, science, education, culture, health, energy, transportation, public administration and other fields for the recipient countries, providing intellectual support for their economic and social development. The project includes one-year master's degree programs, two-year master's degree programs and three-year doctoral degree programs. It mainly sponsors in-service government officials, researchers from academic institutions, and mid-to-senior-level managers in relevant fields from the recipient countries to pursue master's and doctoral degrees in China in English. Due to the relatively short duration of the programs, applicants must have obtained a bachelor's degree in advance and have certain working experience in the corresponding fields to understand the teaching and learning content promptly and fully. Applicants are also required to be in good health to adapt to the high-intensity study and eventually obtain the degree.

Playing an increasing role in the economic and trade cooperation with China and growth of the recipient countries, these programs are taken seriously by the governments of these countries.

Yunnan University of Finance and Economics undertook this program from 2015 under the approval of the Ministry of Commerce of PRC. It now plans to start the enrollment this year. This program is the only master program majoring in project management in the degree programs this year. This major is affiliated with the engineering management degree, which is divided into four research directions to foster talents in trade field: international project contracting and project management, international investment project management, cross-border logistics engineering project management

Academic Education Programs for Developing Countries Sponsored by Ministry of Commerce PRC

and urbanization development project management.

As for the positive effects and good results brought by this program in strengthening economic ties and friendship between China and the recipient countries, the Ministry of Commerce of PRC will continuously intensify its efforts in enlarging the enrollment scale and improving the quality of education. We believe that by attending the program and achieving the degree, you will embrace a successful career and brighter future.

2. Prospective Students:

Government officials at and above divisional level, heads of departments in academic institutions, or administrators at equivalent level.

3. Program Objective:

Fostering high-end and inter-disciplinary talents working in the applied fields of politics, economy and trade, foreign affairs, agriculture, technology, education, culture, health, energy, transportation and public administration.

4. Enrollment Plan:

We have planned to enroll up to 45 students in our master program in project management major, which is conducted in English, with a term of two years.

5. Finance Contents

(1) Students exempt from tuition fees, textbook materials fees, research and study fees, English teaching subsidies and dissertation guidance fees.

(2) Students exempt from accommodation fees.

(3) In terms of living allowance, it is 36,000 CNY/person/year for the master program to be paid to students by installments by the program undertaker, the school will issue the living allowance to the students on a monthly basis according to their actual time stay in China.

Academic Education Programs for Developing Countries Sponsored by Ministry of Commerce PRC

(4)The settlement allowance is 3,000 CNY/person to be paid to students in a lump sum.

(5)The university will buy the China comprehensive medical insurance for students.

(6)The Ministry of Commerce of PRC provides free round-trip international tickets for all scholarship students, for the term of two-year, the tickets include one free round-trip international ticket and one free home visiting round-trip ticket.

(7)All students are required to participate in the annual assessment, and the qualified students will be eligible for full scholarship for the following year.

(8)Other expenses are managed by the Ministry of Commerce PRC or the university, not distributed to the students. MOFCOM only provides subsidies for students within the academic year. The students postponed their graduation will not get further funding.

ii. University Profile

1. Description of University

Yunnan University of Finance and Economics was founded in 1951. Located in Kunming, Yunnan Province - a city renowned as the “Spring City” - the university comprises the Longquan Road Campus and the Anning Campus, covering a total area of over 2,100 mu (approximately 346 acres). In 1995, it was designated as a provincial key university by Yunnan Provincial government. In 2013, it became a doctor authorized institution, and in 2014 it was awarded the first post-doctoral mobile station. After more than 70 years development, the university has formed a multi-level talent training system that organically connects undergraduate, master and doctor education, as well as international students' training and continuing education. It has become a multidisciplinary university with economics and management as its main disciplines, and law, literature, science, engineering and art as its major disciplines.

The university has more than 2200 faculties, including 1500 full-time teachers and more than 700 senior professors. 3 Yangtze River

Academic Education Programs for Developing Countries Sponsored by Ministry of Commerce PRC

Scholar Professors, awarded by the Chinese Ministry of Education, 4 "national pacesetter engineering" experts, 3 national outstanding contribution experts, 6 experts got the State Council special allowance selected by the Ministry of Education, 3 cultural celebrities and "Four Hundred Talents" Project talents, 3 leading talents in philosophy and social sciences under the National "Ten Thousand Talents" Plan, 1 young outstanding talent under the National "Ten Thousand Talents" Plan, and 1 outstanding scholar in quantitative economics in China, 2 professors are selected as the new century excellent talents, 5 professors are the member of Ministry of Education of the national higher school teaching guidance committee. There are also 9 provincial-level outstanding professionals, 8 experts receiving special provincial government allowances, 15 experts linked with the Yunnan Provincial Party Committee, and nearly 300 high-level talents including young academic and technological leaders and beneficiaries of Yunnan's Talent Support Program.

The university adheres to an open approach in its educational endeavors, actively serving and integrating into the national "Belt and Road" initiative. It enrolls international students from various countries, as well as from Hong Kong, Macao, and Taiwan regions, offering programs at the language, undergraduate, master's, and doctoral levels. The university is authorized by the Ministry of Foreign Affairs to issue visa invitation letters for foreigners visiting China and is recognized as a unit exempt from verification. It has established educational exchanges and cooperation with more than 170 universities and institutions across over 30 countries and regions, including the United States, France, and the United Kingdom. The university hosts six Sino-foreign cooperative education programs, leading all universities in Yunnan in terms of program numbers. In collaboration with Thailand's Rangsit University, it established the "Bangkok School of Business, Yunnan University of Finance and Economics," which is among the first overseas educational institutions approved by the Ministry of Education. This school recruits students from Thailand and other Southeast Asian countries, providing degree education and business training. As a training base for

Academic Education Programs for Developing Countries Sponsored by Ministry of Commerce PRC

international business officials under the Ministry of Commerce, the university has conducted degree education programs and short-term training programs aimed at aiding developing countries, cultivating over 5,000 government officials from 107 countries.

2. Undertaking School and Departments

Summoned by the new state policy of "integration of production and education", School of Overseas Education of Yunnan University of Finance and Economics is built for resource share, strength complementation, mutual benefit and strategic cooperation among "government-college-enterprise". It is committed to fully harness the parties' strength to satisfactorily complete the important foreign programs assigned/entrusted by the Ministry of Commerce of PRC and actively carry out overseas education by taking advantage of its critical radiation effect to South Asia and Southeast Asia. Through these efforts the scope and level of international education exchange, cooperation between Yunnan and key countries for oversea investment can be enhanced, the development of its export-oriented economy promoted, while the province can more deeply blend into the state 'The Belt and Road Initiative' and evolve into an international base for talent cultivation with regional influence and domestic, foreign connections. In addition, the "Laos Digital Business Talent Training Base Base -VR Teaching Center", by YUFE has been successfully implemented in Vientiane, Laos and Yunnan University of Finance and Economics from 2020 to 2023. The aim is to enhance the level and level of international educational exchanges and cooperation between Yunnan Province and key foreign investment countries.

The university offers courses for bachelor, master and doctor degrees, and undertakes the degree education programs sponsored by the Ministry of Commerce of PRC, to foster high-end master talents in project management for developing countries. Since 2015, totally 376 officials (1 ministerial level and 12 departmental level) from 54 countries have been enrolled and cultivated as students in 11 academic years. Bangkok Business School, one of the first oversea colleges set up

Academic Education Programs for Developing Countries Sponsored by Ministry of Commerce PRC

with the approval of Ministry of Education of PRC, has trained hand in hand with Rangsit University (Thailand) nearly 200 undergraduate students from Southeast Asian countries majoring primarily in International Business.

Moreover, School of Overseas Education also undertakes various teaching and management tasks of the economic and management courses of the "International Business Officials Training (Yunnan) Base of the Ministry of Commerce", over 5894 officials from more than 115 countries (11 ministerial-level, 252 divisional-level) have been trained in 239 seminars since 2014. Undertook 5 national level feasibility projects and 6 provincial-level foreign aid projects in Yunnan Province. Due to the excellent teaching quality, the school running effect is widely praised by the participating officials of various countries, and affirmed by the Ministry of Commerce of China, Yunnan provincial government, Yunnan Provincial Department of education and other superior departments. At the same time, it has a certain popularity in surrounding countries and has a good international influence.

3. Description of Living Conditions

The university is located in Kunming, the provincial capital city of Yunnan Province in southwestern China. It is known as the "Spring City", because of the agreeable weather; it has a mild climate, no summer heat, and no cold winter. The average annual temperature in urban areas is around 15°C. The temperature difference in Kunming is small throughout the year, however, the temperature difference within one day is large and the intensity of ultraviolet light is high. Kunming has a moderate price level, with an average monthly consumption of 2,400 RMB.

The university has prepared complete hardware and software facilities for students' learning and living of this program. Teaching facilities include 3 meeting rooms, 2 multi-function rooms and 5 specialized multimedia classrooms. Each student is equipped with a single standard room for living, independent bathroom and public kitchen, which is only 20 meters away from the classroom by walking.

Academic Education Programs for Developing Countries Sponsored by Ministry of Commerce PRC

Students may select to eat in the Western, Chinese and Halal restaurants according to their living habits. In addition, the university also has a heated swimming pool, 2 ground track fields, 15 basketball courts, as well as 8 tennis courts, and has an internal gym, so as to enrich students' amateur culture, entertainment and life. Students attending this program may have free access to the university's library and e-book database, as well as the exclusive library arranged for them by the school. In addition, the university has opened the wired and wireless network services, and set the school infirmary on campus.

i. Program Arrangement

1. Curriculum Arrangement

The specific curriculum arrangement shall be subject to the corresponding training plan of the school.

(1) Compulsory courses

Introduction to China

Introduction to China aims to make overseas students have a more systematic and comprehensive understanding of China, and through explanation in full of the characteristic of times deepen their understanding of the current situation and national conditions of China, to lay the foundation for their study and living during the visit in China and improve their learning ability in China and degree of recognition to Chinese culture.

Mandarin 1

Mandarin is a basic Chinese language course for foreign students. The purpose of this course is to comprehend the basic reading and writing of Pinyin, understand the basic daily conversation, and Chinese dialogue, and conduct comprehensive training in listening, speaking, reading and writing throughout the teaching process. Students could write 100 basic daily Chinese characters.

Research Design and Practice

Research is to investigate the hypothesized proposition about hypothesized relationships between natural phenomena in a systematic and controlled manner by using empirical and critical methods.

Academic Education Programs for Developing Countries Sponsored by Ministry of Commerce PRC

Research method refers to a tool or means for discovering new phenomena and new things in the research or putting forward new theories and new views, or revealing the inherent laws of things. This course aims to introduce students to the underlying principles of good research skills and enable students to prepare for and have the ability to carry out research work required for getting master or higher degree. The overall aim is to develop students' capacity of overall research, understanding, interpretation, and evaluation on the performance and quality of academic research, and is specially designed for those who pursue advanced degree.

Project Management

Project Management is to provide students with knowledge and training skills, so that students have the ability to manage various projects, becoming a senior team leader, project manager or a project mentor. After accomplishing the course, students will master the theory knowledge framework related to project management based on project management knowledge section requirements; master logistics management recognition and analysis-related necessary skills, and incorporate logistics management into overall management and operation of organization institutions; apply project management theory principles to project environment including general control and time management, cost management, quality management, human resource management, communication management, risk management, procurement management, integration management and scope management, and help students to apply the management skills learning in the course into actual project management.

Management Science

Management Science is one of the core courses for major graduates, and emphasizes on the general process of management around four core management functions of planning, organizing, leading and controlling. Its system structure includes: the first section is overview, which introduces the development of management theory, the mission of management science and the foundation of management. Starting from the second section, the content is divided into five articles according to

Academic Education Programs for Developing Countries Sponsored by Ministry of Commerce PRC

management functions, that is, plan, organization, leadership, control and innovation. Thereby, the second article main introduces organization plans and decision-making methods, target management, strategic plans and other basic theories and methods; the third one involves organization structure design, human resources management and change; the fourth one describes how to effectively implement leadership functions from three aspects of leadership, incentive and communication; the fifth one describes the control function of organizations in aspects of control processes and methods; the sixth article from management innovation, technology innovation and organization innovation describes the innovation function of organizations.

Project Risk Management

Project Risk Management is to give students an understanding of the basic risk management concepts, management processes and methods, and make them be familiar with the risk factors, risk analysis methods as well as major risk management strategies in all phases of the construction process of projects. After accomplishing project risk management master course, students will have the capacity to analyze various types of project risks, flexibly use risk management tools and models to analyze and recognize various risks, and based on this reasonably use various risk counter measures, management methods, technologies and means, implement effective control of project risks, properly process adverse consequences caused by risk events, and guarantee the general target of projects to be achieved at minimum costs.

Principles and Methods of Management Decision-making

This course aims to enable students to master the basic decision-making theory and decision-making methods, understand the latest decision-making technology, and cultivate and improve students' decision-making analysis ability. Specifically, it includes the systematic introduction of relevant decision theory to students; To help students master basic and commonly used decision-making techniques ("hard" and "soft"); Cultivate the decision-making theory cultivation and

Academic Education Programs for Developing Countries Sponsored by Ministry of Commerce PRC

practical operation ability of finding decision-making problems, determining decision-making goals, drawing up and selecting decision-making programs, implementing programs, etc., so as to lay a good foundation for constantly updating ideas, broadening horizons, adapting to changes, and advancing with the times in practical work in the future.

Urban Economics

Based on the perspective of economics, this course applies the basic theories of economics and integrates multidisciplinary research methods to reveal the historical process and operation rules of the generation and development of urban economy, focuses on the urban space system, explains the mechanism of urban system with diversified charts, and introduces relevant basic knowledge. In order to better build a livable and working city, It provides theoretical basis for urban policy advice and implementation. The course covers topics such as universal law of urbanization, urbanization road, economic zone and central city, urban economic development strategy, urban economic structure, urban population economy, urban land economy, urban housing economy, urban infrastructure, urban environmental economy, urban modernization and internationalization.

Project Procurement and Contract Management

This interdisciplinary course involves the knowledge related to project management, engineering, commercial/contract law and their integration research, and covers engineering procurement process and stage, contract management processes and closure, as well as suppliers relationship management under the background of project management, so that students master knowledge and skills related to procurement plan development, contract work description, establishment of contract evaluation criterion, application for bid, and project management plans. The course combines theory with practice, and discusses subjects including procurement and contract management practice in China and countries in the world, international standard general contract conditions and model text.

Project Management Information System

Academic Education Programs for Developing Countries Sponsored by Ministry of Commerce PRC

This course provides students with a systematic understanding of project information management methods and applications, including the acquisition, identification, collection, organization, sharing and reporting of project information during project implementation. This course revolves around a practical information system project, introduces the whole process from project establishment to end, enables students to have a whole understanding of information system project management, can not only learn the basic theory of information system project management, familiar with the common problems and solutions in information system project development, but also can quickly apply the theory to practice, thus guiding the actual information system project management work.

Property Development and Finance

The subject of asset development and finance, which mainly studies the financial institutions providing credit services and other financial services in the fields of asset development, circulation and consumption, has emerged and developed continuously. Asset development and finance is an interdisciplinary subject between real estate economics, finance and investment science. It is developed on the basis of the basic theories and methods of these disciplines, and is a subject that systematically discusses the theories and methods of real estate financial activities.

(2)Optional courses

Mandarin 2

This course mainly focuses on learning vocabulary and sentence patterns in daily communication and learning communication. According to different scenes, students are required to master the meaning and usage of words and use relevant words to form paragraphs for dialogue. Systematically teach students the basic knowledge of daily communication and learning communication, so that students can systematically master pronunciation, vocabulary and sentence patterns, and enable students to flexibly use basic vocabulary and sentence patterns through a large number of exercises (including the practice of

Academic Education Programs for Developing Countries Sponsored by Ministry of Commerce PRC

simulating real situations), and learn the cultural differences in cross-cultural communication at the same time, so as to improve the Chinese communication ability of foreign students.

Chinese Culture 1

This course enables foreign students to master the basic theoretical knowledge, basic technology, and the characteristics of Taiji and Chinese martial art movement into the study of traditional Chinese culture, on the basis of physical exercise to understand the traditional culture, experience the hard work and brave spirit of the Chinese nation, improve their own physical quality, strong physique, improve the comprehensive quality of foreign students. This course is based on the principle of step by step so that students can systematically learn and master the basic techniques and culture of Taiji and Chinese martial art.

Chinese Culture 2

This course aims to improve students' understanding of Chinese traditional cultural concepts and Chinese philosophy, and improve students' artistic and cultural literacy. Calligraphy is a unique art form in China, which is based on Chinese characters, according to the modeling characteristics of Chinese characters and the law of formal beauty. Chinese painting is not only the cultural treasure of the Chinese nation, but also unique in the treasure house of world culture and art. Through the teaching of this course, students can expand their artistic aesthetic vision and master various forms and methods of calligraphy and painting.

Intercultural Communication

This course aims, within the context of the Belt and Road Initiative and the vision of building a community with a shared future for mankind, to enhance students' intercultural awareness and cultivate their intercultural communicative competence. It helps students understand the theoretical foundations of intercultural communication and interaction, master the knowledge and skills required for effective communication in the context of Chinese culture, and appreciate the important role of Chinese culture in intercultural exchanges. The course also equips students with the ability to address cultural differences and

Academic Education Programs for Developing Countries Sponsored by Ministry of Commerce PRC

resolve conflicts between Chinese and foreign cultures, enabling them to apply relevant skills to meet the demands of intercultural engagement. The objective of this course is to enable students to flexibly apply the knowledge they have acquired, effectively respond to various communication and interaction scenarios encountered during their study and daily life in China, strengthen their adaptability to Chinese culture, and enhance their ability to achieve successful intercultural communication in future intercultural practice.

China's Economic Development

This course details several major regional development strategies in China and their contents in chronological order based on the theory of regional economy, evaluates their impact on China's overall economic development, and explores how to further reduce the gap of regions, so as to achieve the law of coordinated development of regions.

Critical Thinking and Reflective Practice

Critical thinking, a kind of thinking model mainly featuring rational reasoning and introspective argument, is used to analyze complex problems, identify fallacies and prejudices and make inferences from the evidence. This course aims to help students to move away from traditional thinking and knowledge frame, develop students' capabilities of independent thinking, bold challenge, cautious assertions, prudent decisions and innovation, and thereby contribute to develop students' critical thinking skills and habits, to lay a solid foundation for innovative academic research and practical work.

Data Analysis Tools and Methodology

The purpose of this course is to enable students to master complex data analysis methods that need to be mastered in management and engineering technology research, understand the frontier development and latest theoretical achievements of quantitative analysis methods, pay attention to cultivating students' academic research ability and data quantitative analysis ability, and master the standardized application of complex data analysis methods and general analysis software, To effectively study and solve important problems in economic management, social management and engineering technology. This

Academic Education Programs for Developing Countries Sponsored by Ministry of Commerce PRC

course aims at the cultivation of master students and provides their complex data analysis methods and technical tools. The teaching content focuses on teaching the idea of complex data analysis and strengthening the practical application of these methods in economic management and engineering technology research. The main content includes topics such as structured data analysis.

Social Practice Research 1

During the annual practical investigation week, participants of this project will conduct in-depth research activities within Yunnan Province. This course aims to enhance participants' understanding of Yunnan's society, economy, and culture through field investigations and practical activities. By engaging in hands-on participation and observation, participants will gain a deeper insight into the local customs, economic development status, and social issues of Yunnan Province. They will integrate theoretical knowledge with practical experience, thereby improving their ability to analyze and solve real-world problems.

Social Practice Research 2

This course will arrange for participants to conduct social practice research in other provinces, municipalities, or regions across China, with a focus on showcasing Chinese characteristics. It aims to provide a comprehensive and multi-dimensional perspective on China's development journey and successful experiences over the more than 40 years of reform and opening-up. Through this practical activity, participants will personally experience and gain an in-depth understanding of the social, economic, and cultural transformations in different regions during the reform and opening-up period. They will deeply appreciate the unique aspects and remarkable achievements of the path of socialism with Chinese characteristics. Through field investigations and observations, participants will compare and analyze the development models, economic conditions, and social issues in different regions, integrating theoretical knowledge with practical experience to enhance their ability to analyze and solve real-world problems. Additionally, the course will encourage participants to apply their professional knowledge to conduct in-depth thinking and research

Academic Education Programs for Developing Countries Sponsored by Ministry of Commerce PRC

on issues encountered during the investigation. By connecting these issues with real-world problems in their own countries, participants will propose innovative solutions, cultivate their problem-solving skills, and deepen their understanding and recognition of China's national conditions and development path.

Note: the actual teaching is subject to the training program

(4) Qualified teachers

The Master of Engineering Management (Project Management) is an emerging discipline of Yunnan University of Finance and Economics. After more than ten years of development and cultivation, the discipline team structure is reasonable. There are 94 teaches in teacher resources of the programme, including 34 professors, 24 associate professors and 59 of them has doctor degree, 90 of whom can teach and guide students in English. In the current teaching plan, this program just use 29 teachers and 31 supervisors in the teacher resources, among whom 24 are professors, 16 are associate professors and 29 are doctors.

2. Teaching Methods

(1) Implement the credit-system-based teaching system.

(2) Adopt heuristic and discussion-based teaching method. Attach importance to combination of theory and practice, practical application, cultivation of postgraduates' ability for practical operation, problems analysis and problems solving. Students will be comprehensively evaluated based on examination and usual performance (homework, classroom discussion, case analysis and curriculum practice, etc.).

(3) Highlight project management practice and hold lectures on special topics. Invite experts with abundant practical experience from

Academic Education Programs for Developing Countries Sponsored by Ministry of Commerce PRC

enterprises and government sectors to hold lectures.

(4)Combine academic dissertation and work practice. The final academic dissertation may be completed in multiple forms, including professional paper, research report, consulting report, cases analysis and feasibility research.

(5)Implement the "tutor-responsible" mechanism in the cultivation process and make off-campus tutors to play a guiding role for internship, dissertation and employment.

(6)Adopt the full-time teaching method. Lessons will be given in the same teaching management and teaching method.

3. Semester Arrangement

For this program, students may register at the end of August every year and start school in early September. Semester arrangement will comply with the school calendar of YUFE, with 18 weeks for each semester. In addition to Chinese national holidays, there will be summer holiday and winter holiday each year. Qualified students will graduate in July of the second year.

4. Dissertation

(1)Requirements for dissertation

The duration of dissertation writing time will be an whole academic year. In the third semester, students may enter into the dissertation preparation and proposal phase, while in the fourth semester write the dissertation by combining with professional practice. The dissertation should be combined with project management practice, reflecting students' ability to analyze and resolve practical problems by applying project management and relevant theories, knowledge and methods. It may be written in multiple forms, including research paper, project management cases analysis, project research report, and feasibility report. It should be practical-oriented with innovation and practicability.

(2)Requirements for dissertation defense

The dissertation may be verified and approved by the dissertation defense committee. The committee shall have at least 5 members,

**Academic Education Programs for Developing Countries Sponsored by
Ministry of Commerce PRC**

among which not less than 2 off-campus experts are required with a title of advanced professional technician in the field of project management practice. The committee adopts the majority voting system, which means the dissertation will fail to pass if more than half experts are dissent.

5. Degree Awarding

To be awarded the degree of Master of Engineering Management (Major in Project Management), students shall obtain the required credits within the stipulated period, pass the dissertation defense, and be approved by the university degree committee of YUFE.

Notes: The degree awarded is professional master's degree.

Academic Education Programs for Developing Countries Sponsored by Ministry of Commerce PRC

II. Application

i. Application conditions

The applicants shall:

1. Be citizens of developing countries other than China, healthy, less than 45 years old (born after September 1st, 1981);

2. Be healthy both physically and mentally, provide health certificate or examination form issued by local public hospitals; Be suffering from no illnesses for which entry into or long residence in China is prohibited by laws and regulations, nor from other severe chronic diseases like serious blood pressure, cardiovascular and cerebrovascular diseases, diabetes, cancer etc., mental disease or epidemic diseases that are likely to cause serious threat to public health; Be not in the process of recovery from a major operation or at the stage of attack of acute diseases; Be not seriously disabled or pregnant, and will be required to leave school if getting pregnant during study in China.

3. Have bachelor or higher degree, and at least three years of working experience;

4. Be considered first when having the learning or working experience related to the program applied and being in employment;

5. Be working as department head (or equivalent level) in the local government, senior staff of institution, enterprise or academic backbone in a college or research institute;

6. Be good at English and can understand the courses in English (reference standard: IELTS \geq 6.0, or New TOEFL \geq 80)

7. Have the potential for professional development and be willing to promote the state exchange and cooperation with China.

8. Not be studying in China or have been enrolled by other scholarship program sponsored by Chinese government.

ii. Application Procedure

1. Submit Application to YUFE

(1) Please complete the corresponding procedures according to the

**Academic Education Programs for Developing Countries Sponsored by
Ministry of Commerce PRC**

system requirements in the official application website of our school.

<https://ynufe.at0086.cn/StuApplication/Login.aspx>

(2) In order to process Confirmation Form for Study in China (JW202 form), the applicant must send the following materials to our official email: yufeducation@163.com:

- Scanned copy of the first page of applicant's ordinary passport (valid for more than half a year) in electronic form;
- Scanned copy of applicant's highest degree certificate;
- Soft copy of applicant photo (2-inch, bareheaded, white background) taken within 3 months.

After receiving the above materials, the school uniformly applies for JW202 form for the applicant.

Notes:

- a. All information in the application must be filled in, and your valid and commonly used email address **MUST** not be omitted.
- b. Valid passport should be an ordinary passport, please do not submit a diplomatic or service passport.
- c. Please select the enrollment category as: MOFCOM Scholarship.

2. Application for Admission

Materials preparation (Form below just for reference only. And official requirements should be from the Business Office of the Embassy of the People's Republic of China in the local country.)

Prepare the following materials before the submission of application:

No.	Application Materials	Requirements	Original	Copy
1	Graduation Certificate, Diploma	1. The photocopy of your highest <i>Graduation Certificate</i> and <i>Diploma</i> . 2. For applicants who haven't graduate, a letter of certification issued by school authorities is required to indicate the date of graduation.	1	1

Academic Education Programs for Developing Countries Sponsored by Ministry of Commerce PRC

2	Letter of Recommendation	1. Letter of Recommendation from the employer: issued by the applicant's employer to introduce the basic information of the applicant and indicate the willingness to recommend the applicant to study in China; 2. Letter of Academic Recommendation: issued by an associate professor or above to introduce the applicant's academic background, major, past achievements and research ability.	2	2
3	Formal Transcript	1. Transcripts must be original or notarized photocopy in Chinese or English. 2. Transcripts must include all courses learned and final achievements.	1	1
4	Personal Statement	About 1500 words. Please make a statement from the perspectives of academic background, work and research experience and achievements related to the major applied for, study and research plans in period of postgraduate and development target after graduation.	1	1
5	CV	Personal background, learning and working experience after senior high school	1	1
6	Research plan	Study and research plan that hope to complete during your study in China	1	1
7	Evidence of English Language Proficiency	For applicants who are native English speakers or are taught in English in college, are not required to submit this document. (See above for detailed requirements)	1	1
8	Photocopy of Valid Passport	1. The expiry of passport must cover the studying period. Clearly display the name, passport number and other information. 2. Please be sure not to submit diplomatic passport or service passport.	0	2
9	Recent Photo of Passport	Two two-inch bareheaded photos with white background in recent 3 months.	2	0
10	The Form of Physical Examination	<i>The Form of Physical Examination for Foreigners</i> , <i>Blood Test Report</i> which must show the result of physical examination within 1 month prior to the application date.	1	1

3. Application Submission
